

**EXCELLENT FILTRATION
PERFORMANCE**

ANTIMICROBIAL

CARTRIDGE FILTER ELEMENT

For residential &
commercial pool
and spa

UNPRECEDENTED FILTRATION PERFORMANCE

Emaux cartridge filter elements are made of high-quality fabric material that provides efficient and effective filtration of dirt, debris, and other particles from pool or spa water.

They are designed to be durable and long-lasting, with a strong, sturdy frame and high-quality materials that resist chlorine degradation and can withstand the demands of filtration.

Available in a wide range of sizes and configurations, making it easy to find the right filter element to fit your specific pool or spa filtration needs.

To keep the water clean, clear, and free of contaminants, Emaux cartridge filter elements are the best choice.

HIGHER EFFICIENCY CORE

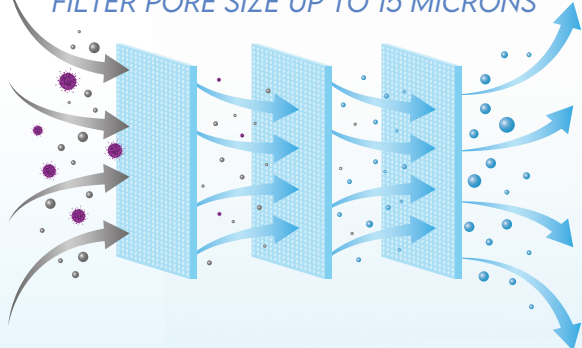

Employing engineered ABS to enhance flow, efficiency, and energy efficiency, these unique cores elevate the cartridge's filtration performance.

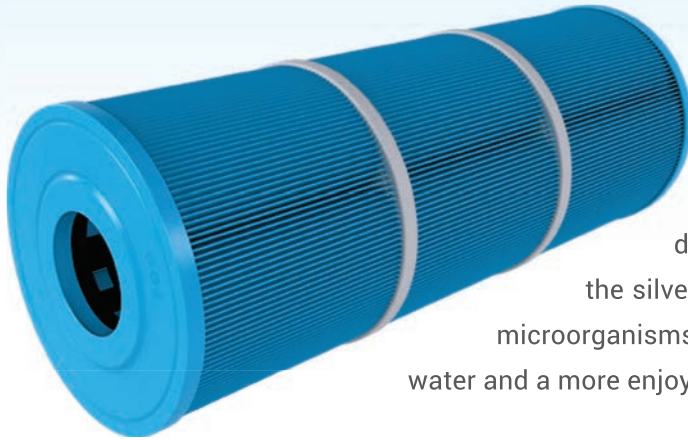

FRACTURE-RESISTANT BAND

Exceptionally durable and undergoes a stringent sealing process, reinforced to support pleats, easy cleaning and long filtration cycles.

SUPREME FILTRATION FABRIC

PET SPUNLACE NON-WOVEN FABRIC
FILTER PORE SIZE UP TO 15 MICRONS

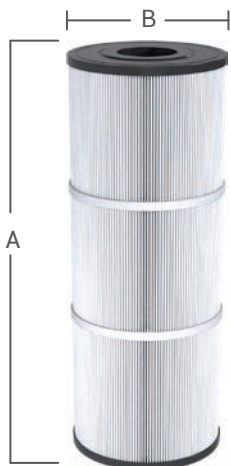

EMAUX SUPERIOR CARTRIDGE FILTER ELEMENT

Filter element with Silver ion technology are designed to provide enhanced filtration performance, with the silver ions helping to inhibit the growth of bacteria and other microorganisms in the filter element. This can result in cleaner, clearer water and a more enjoyable swimming or spa experience

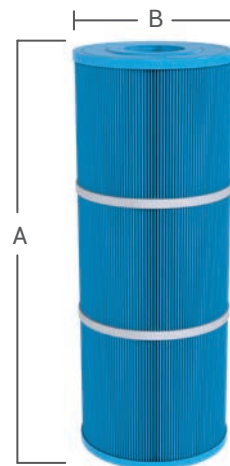

ANTIMICROBIAL SILVER ION TECHNOLOGY

Silver ion is an antimicrobial agent that stops the growth of micro-organisms. It prevents the growth for a wide range of microbes. Silver ion effectively inhibit the growth of bacteria on the cartridge surface.

Emaux **ELITE** Cartridge Filter Element

- DELUXE PRISTINE WATER
- LONG LASTING
- RESIST CHLORINE DEGRADATION

Emaux **SUPERIOR** Cartridge Filter Element

- LUXURY PRISTINE WATER
- LONG LASTING
- SILVER ION TECHNOLOGY
- RESIST CHLORINE DEGRADATION
