

SUPERIOR MOTOR — — SMARTER PUMP

FOR RESIDENTIAL POOLS AND SPAS

EcoFLOW
Variable Speed PUMP

HIGH PERFORMANCE & SAVE ENERGY

Emaux EcoFlow variable speed pumps combine an innovative pump design with a high-performance motor to reduce energy costs compared to less efficient single-speed pumps, achieving superior efficiency up to 86% and exceeding industry standards. Easy installation and a user-friendly experience simplify pool maintenance. This core combination delivers unmatched performance, reliability, optimized water flow, and energy savings for both new and existing pools and spas.

EcoFLOW

Variable Speed PUMP

Special Design for EcoFlow Variable Speed pump

Precise alignment with plumbing position, making it easy to replace the Astralpool CTX

User-Friendly smart control panel

Enhanced self-priming through an innovative pump body design

Product feature:

- Self-priming up to 3.3m above water level
- Feasible union design for both imperial and metric standard
- Robust suction-resistant filter basket with specially designed filter holes
- Direct replacement for other model pumps
- Class insulation Class F
- Thermal or over current protection
- IPX5 Waterproof Standard
- Basket volume 2L

New Connectivity and External Smart Control

DOWNLOAD THE APP

SMART LIFE

IoT Connection:

An IoT version can be controlled and monitored over an internet connection, enabling users to manage pool functions remotely. This connectivity allows for real-time adjustments, automated scheduling, and enhanced efficiency in maintaining optimal water quality.
